

## MITER GAUGE

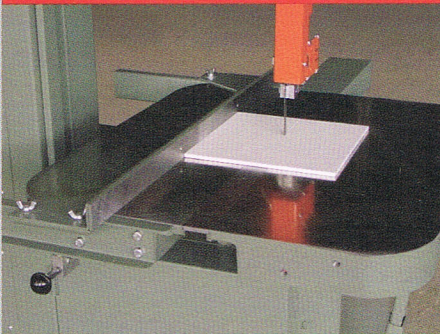

Cut precision miters with this attachment. Indexable from 0° to 45°.

## AIR HYDRAULIC FEED

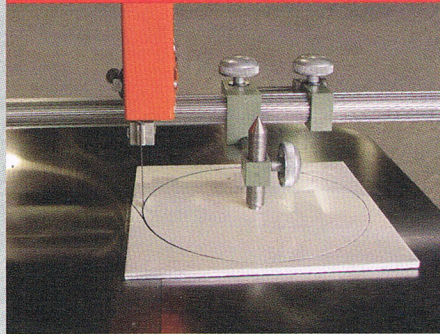

Enables operator to manually direct workpieces as they are fed into the saw blade.

## RIP FENCE

Machined and ground rip fence attachment easily adjusts for fast, accurate workpiece ripping.

## CIRCULAR CUTTING

Easily attaches to provide accurate, precise circular cutting.

# Optional Equipment

Grob band saws are supplied with an extensive list of standard features and equipment to support a wide variety of sawing applications. These capabilities can be enhanced with the addition of optional equipment that reflects the same quality and durability as the saws themselves.

## BUTT WELDER for Carbon Steel & Bi-Metal Blades

**RWA Butt Welder** - Machine Model  
1/8" - 1" saw blade  
220/440V Single Phase with filing  
fixture, T-10 saw blade cut-off tool.  
(NOTE: Bench Model Voltage - 220V only)

### Optional Equipment

- Grinder for Butt Welder
- Stand for Welders
- Stand Casters
- Extra T-10 Cut-off Tool
- Extra Filing Feature

- Heat Switch
- Welding Jaws Inserts (4)
- Weld Button

### SAW BLADE CLAMPS

The saw clamps grip only the flat portion of the blade. The teeth are not clamped. This prevents distortion of teeth and assures full electrical contact which is imperative for a good uniform weld.

- Motor Grinder Switch
- Clamp Levers (4)
- Grinder (optional)
- Alignment Gauges (2)
